

Carol Leake

Women of a Certain Age

Drawings and watercolors of women over the age of forty

It is often said that women 'of a certain age,' by which is meant women approximately over the age of forty, become invisible. While this invisibility confers a certain freedom, the reasons for it strike me as being worth questioning. The series, Women of a Certain Age is a refusal to go gently into a twilight decreed by social convention rather than by one's own choice.

Cynthia Scott

cynthiascott2000.com

Scott plays with brightly colored nonsensical dollar store junk and painted or wrapped debris to explore themes of social inequity, political hyperbole and man's interference with the environment - seducing the viewer with humor to elicit ruminations on the more sinister aspects of life in 21st century America.
